Rob,

I will forward this to upper management for a formal response. I was told by my immediate manager that we did not use ENI or CAI or the stated site. A formal response from Chemtron will be forthcoming. Please let me know if you have any further questions. Thanks.

Hi Marcie

EPA has a superfund site in Kalamazoo County, Michigan called the Texas Township Drum Site. The site was operated by Donald Haugen. He did business as Environmental Network, Inc. (ENI) and Chemical Assistance, Inc. (CAI). Apparently on this guys' promotional material, he has Akron Public Schools listed as a reference, so they are asking me if we ever did business with them. I am contacting companies that have done lab packs for APS to find out if they have any knowledge that they ever used this site. The manifests that I have gone through show no reference to this site and I assume that you have not used this site but I still need to ask.

I don't believe Chemtron has used that site. Can you confirm that?

Any information would be helpful. Thanks.

Sam,

I took a call today from Rob Boxler of Akron Public Schools. His name and company were listed in some promotional flyers as a reference for a

company that is now a superfund site. Rob doesn't recall that any of his waste has ever shipped to that company, however, WTI did some HHW packs for the school.

He just needs to know if we've ever shipped to this company so he can respond to the letter he received from EPA.

The man that ran the company is Donald Haugen. The company could be under his name or under ENI for Environmental Network, Inc. Or, it could also be under Chemical Assistance Inc, CAI.

Do any of these sound familiar to you?

Hi Rob,

Humrr, I don't know why he would have you listed as a possible customer, unless you did any business with him back in the late 1980 to early 1990's. CAI or Chemical Analytics, Inc. has no affiliation with his company, and did not act as a broker in any way for his company. Our owners know who this individual is, but have no connection or affiliation with him. It's sad to see that there are still such irresponsible businesses preying on small businesses out there, hope he get what's coming to him. I have personally been with Chemical Analytics, Inc. for 26 years, and have never done any business with this company.

Thanks for the question,
